StandardTIG-200 StandardTIG-250

PATON STANDARDTIG-200 AND STANDARDTIG-250

ARGON ARC INVERTERS are designed for direct current welding in TIG, MMA, and MIG/MAG modes (combined with an external wire feeding unit). They are powered by a 220/230V network, equipped with a contactless arc ignition unit (oscillator). They have the PULSE function for each of the specified welding modes.

The machines are supplied with a shock-resistant case for convenient transportation and storage.

Processes

Input

PARAMETERS

	StandardTIG-200	StandardTIG-250	
Rated power supply voltage, V 220/230	220/230		
Rated current consumption from the mains phase, A	25–28	29,5–35	
Rated welding current, A	200	250	
Maximum operating current, A	270	335	
Power supply voltage range, V	160-	160–260	
Duty cycle (DC), %	45% / 200A 100% / 134A	45% / 250A 100% / 167A	
Welding current control range, A	10-200	12-250	
Pilot arc and crater filling current functions	+		
Up- and downslope current functions	+		
Shielding gas pre- and post-flow functions	+		
Operating temperature range	−25 +45°C		
Rated power consumption, kVA	5,2-6,2	6,5-7,7	
Maximum power consumption, kVA	8,1	9,4	
Cooling	Adaptive		
Overall dimensions, L×W×H, mm	345 × 112 × 290		
Weight, kg	5,9	6,0	
Standards	EN IEC 60974-1		
Protection class	IP 33		
Insulation class H	Н		

ADVANTAGES

PATON

FRONT CONTROLS

- 1 Welding mode selection button
- 2 The regulator for selecting the functions (parameters) of the current mode
- 3 Digital display
- Welding program selection button (set of parameters previously set by the user)
- 5 Connector for feeding signals from the wire feeder to turn the welding current source on and off
- 6 Button ON/OFF
- 7 Power supply cable
- 8 Socket for shielding gas supply to the torch
- 9 Connector for controlling torch buttons
- 10 Connection for shielding gas supply from a gas bottle
- A Bayonet-type power current socket "+"
- B Bayonet-type power current socket "-"

APPLICATIONS

The machines are used in private workshops, car service stations, and manufacturing enterprises for welding products made of non-ferrous metals and their alloys.

COMPLETE SET

- 1 Welding cables with ABICOR BINZEL grounding terminal (for StandardTIG-200)
- 2 TIG torch ABICOR BINZEL (for StandardTIG-200)
- **3** Belt for carrying the device on the shoulder
- 4 PATON branded plastic case
