

A VersaDrive exclusive innovation, the ImpactaStep Cutter offers combined drilling and reaming on materials up to 12mm thick.

Featuring 5 individual cutting diameters and a straight flute design for strength and easy resharpening, the ImpactaStep Cutter is optimised for use with Impact Drivers and Impact Wrenches as well as the latest range of VersaDrive Premium Magnet Drills.

VersaDrive ImpactaStep Cutters have a patented non-slip, Hex shank suitable for use in any standard 1/2" drill chuck for cordless or pistol drills or used with a VersaDrive Rapid Lock Adapter for use in a wide range of power tools such as Magnetic Drills.

Features & Benefits

-  5 drill bits in one
-  Create & enlarge holes in material up to 12mm thick
-  Safety breakthrough collar to prevent injury & damage

-  Fast, smooth drilling & reaming with minimal kickback
-  Specially hardened for impact wrench use
-  GoldMax low-friction titanium coating to stop burn out

RECOMMENDED FOR USE WITH:

**Impact Drivers
Impact Wrenches
Rotary Drills**

CAN ALSO BE USED WITH:

**SDS• Adapter
Extension Arbor**

"My favourite tool must be the new ImpactaStep cutter. Being able to carry just a few TurboTip drill bits & the cutter means most work can be tackled. Often used with 12v impact tools."

**James Sinclair
Dexta Moors**

Quick Guide

-  For fastest performance use on impact wrenches & impact drivers
-  Pilot drilling is recommended for a faster operation and to enhance tool life
-  When used for reaming, tool should be rotating before starting cut with steady pressure
