# POWERTEC® i COMPACT RANGE

The **POWERTEC® i COMPACT RANGE** is built on the latest Lincoln inverter platform, ensuring optimal **MIG/MAG** and **MMA** welding performance with excellent power and cost efficiency.

The range consists of: 250A, 320A, 380A and 450A power sources with a choice of either the **STANDARD** panel (i250C & i320C) or the **ADVANCED** panel (i250C, i320C, i380C & i450C), that meet most customers' needs and covers a wide range of welding applications.

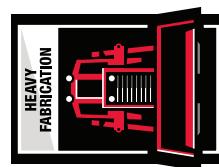

The Plug & Play water cooler COOLARC® 26 is available for **POWERTEC® i380C & i450C ADVANCED**.

**NEW**

From now on all newly manufactured Powertec-I Compact machines are equipped with Lincoln Electric **Premium MIG guns** **LINCGUN® PROMIG™** and offered as **READY-PACKS**.

Water Cooled version available – **PACK** includes **cooler** installed and **coolant**!

# PREMIUM ARC PERFORMANCE

- **ARC INITIATION** – Repeatable arc ignition with outstanding arc characteristics.
- **ARC STABILITY** – Excellent arc stability, ensuring a smooth droplet transfer with reduced spatter.
- **ARC DYNAMICS** – Rapid parameter adjustment allowing variability under welding conditions.

# FUNCTIONALITIES & ERGONOMICS

## Ergonomic design

- Tilting gas bottle tray for ease of loading
- Ideal height for easy-to-view settings
- Easy maneuverability and small footprint
- Convenient top-mounted expendable parts compartment

**COOL ARC® 26**  
as option [only for i380C & i450C]

**Gun rest**  
**Tools storage**

**UI protection cover**

**7" color TFT screen**  
Simple navigation also when using  
welding gloves

**LED lighting inside  
feeder chamber**

**Inspection window**

**Low gas cylinder  
entry**

**Rubber bumpers protecting feet**  
[as standard for i380C & i450C]

**Large wheels** to easily and effortlessly  
overcome obstacles such as cables  
or thresholds

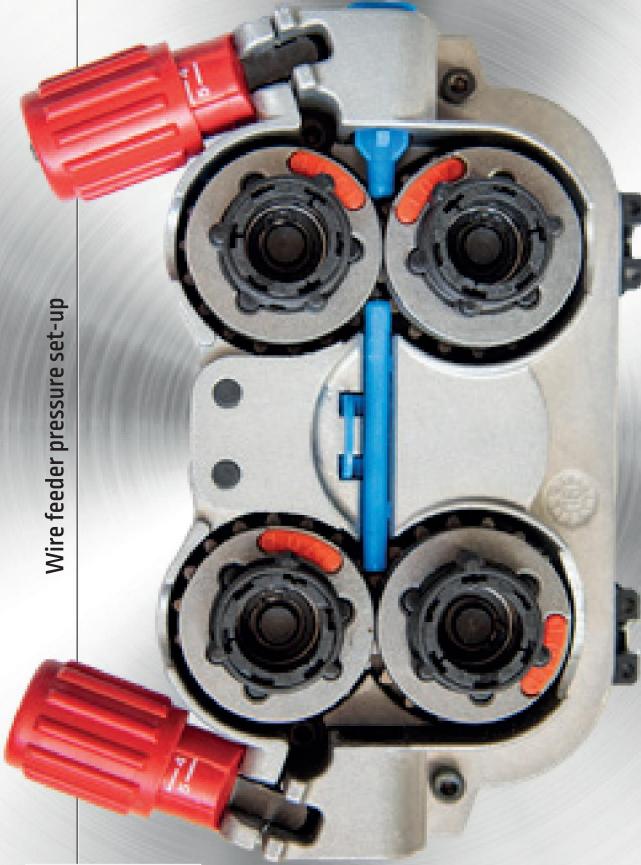

**4 lifting eyes** for easy hook-in  
and safe transportation

# STATE OF THE ART TECHNOLOGY IN WIRE FEEDING

## Professional wire feeding system – robust and precise

- 4 individually driven rolls for extremely stable wire feeding of various wire types
- Aluminum housing for a long service life
- Big roll diameter (37 mm) for optimal wire feeding
- Simple, tool-free roll change
- Factory-fitted with rolls for 1,0 mm and 1,2 mm steel and stainless steel

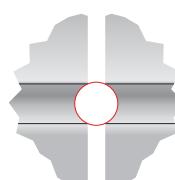

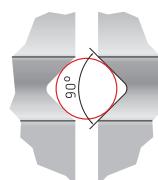

Steel	3-5
Stainless steel	3-5
Braze	2,5-3,5
Flux cored	1,5-2,5
Aluminium	

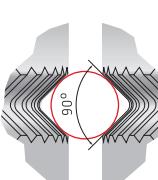

## Individually adjustable contact pressure for the front and rear roll pair

Adjustable set-up for aluminium, steel, stainless steel, braze, flux cored wire

V-groove for stainless steel, steel  
U-groove for aluminium

V-groove, knurled for flux cored wire  
90°

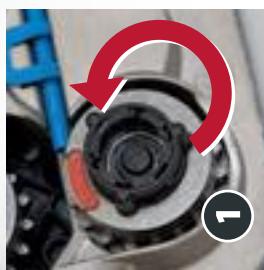

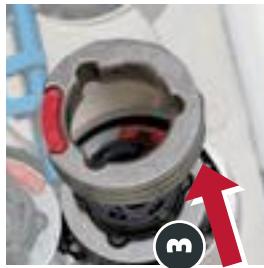

LED lights.  
better visibility

Optimized wire positioning:  
improved arc stability & reduced gun vibration

Steel	3-5
Stainless steel	3-5
Braze	2,5-3,5
Flux cored	1,5-2,5
Aluminium	

New locking system, quick exchange of roll and wire guides  
Simple, tool-free roll change  
– just few steps

- 1 Unlock the roll fastener
- 2 Unlock pressure arm
- 3 Exchange the roll

# BUILT FOR DEMANDING INDUSTRIAL CONDITIONS

## High duty cycle 420A/100% [450C]

- High production efficiency
- Digital arc control
- True HEAVY DUTY

## Inverter engine technology – ECO Friendly

- Lower energy consumption
- Automatic power-saving modes [standby/shutdown function]
- Generator ready

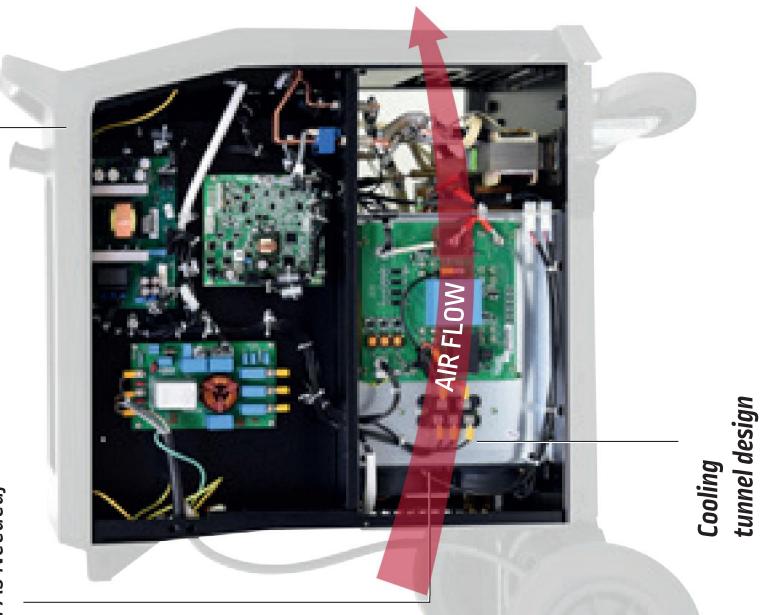

## Lincoln Electric Industrial design – ready to use anywhere

- Safety class IP23, potted PCBs
- and no structural plastics
- 3 Year full parts and labour warranty

## Easy maintenance and servicing

- Easy access to internal components
- Software update via laptop or USB
- [Advanced version]

## Intelligent F.A.N. [Fan As Needed]

# INNOVATIVE, INTUITIVE USER INTERFACE – REDUCED TIME FOR TRAINING

Simple navigation also when using welding gloves

## Innovative and easy communication

- Two controls, one button for easy navigation
- Icon language for key commands
- Easy process and settings selection
- ARCFX™ – joint visualization
- Work point in material thickness [mm] / WFS / A
- Locking function / Limits / Memories / Jobs
- Interface available in languages: English, German, French, Polish, Finnish, Spanish, Italian, Russian, Dutch, Romanian, Slovakian, Hungarian, Czech, Turkish, Portuguese

## More functions & features

<b>Auto</b>	<b>AUTO-SETTINGS</b> Preset parameters to increase productivity.	 <b>USB CONNECTIVITY</b> Easy software update & diagnostics, weld log for quality monitoring.
 <b>NEW</b>	<b>CLOCK &amp; CALENDAR</b> Simple welding quality monitoring as weld log data recording on USB.	
 <b>NEW</b>	<b>SPEAKER</b> Product operation (adjusting the encoders or pressing the button) and errors signaled by a sound.	

## STANDARD USER INTERFACE – BASIC SETTINGS

### User memory programs & welding process change:

- Simple and quick selection by pressing the button of 4 welding programs stored in user memory or 3 welding processes [GMAW, FCAW, SMAW]
- LEDs showing the selected process

### Quick and easy access to the most commonly used welding parameters:

- **Arc Controls** [depend on the welding program]
  - Torch trigger mode **2-step / 4-step**
  - Wire Feed Speed **Run-in** function
  - **Burn-back** time

SYNERRIG  
Capability

NEW

Sticker with description  
of all welding program  
numbers available.

## LINCGUN® PROMIG™ UD – PARAMETER CONTROL

**NEW**

Two new models with parameter adjustment:

Air Cooled

**LINCGUN PROMIG  
300 UD 4M**

W100000297

Water Cooled

**LINCGUN PROMIG  
500W UD 4M**

W100000298

Supplied with a **2-button module** [Up/Down] already installed and a **Cross-Switch module**, easy to change by yourself, just unscrew one screw.

This functionality is available to Lincoln Electric machines with a 12 pin plug.

Technical specifications

Product Name	Product Number	Cooling	Duty Cycle	Length
LINCGUN PROMIG 300 UD 4M	W100000297	Air	300 A CO2 / 270 A M21 @ 60%	4m
LINCGUN PROMIG 500W UD 4M	W100000298	Water	500A CO2 / 450A M21 @100%	

**Both models are a part of the LINCGUN PROMIG family, which means:**

- Highly resistant to mechanical damage and high temperatures
- Long-life, proprietary wear parts delivering up to 70% more welding wire per contact tip
- Dedicated high quality liners ensuring smooth wire feeding
- Simplified use and wear parts management to reduce downtime
- Extended warranty
- Delivered ready to weld: with a long-life contact tip and a liner
- Compliant with EN 60974-7 norm

The **Cross Switch module** allows you to switch between different welding modes and to adjust the WFS.

**Use the Cross Switch module to choose one of the following options:**

1. Wire Feeding Speed and Arc Length / Trim
2. Wire Feeding Speed and Job
3. Wire Feeding Speed and Procedure A-B

For more information on any of the guns seen here, go to [www.lincolnelectric.eu](http://www.lincolnelectric.eu)

## CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company® is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice, including any implied warranty of merchantability or any warranty of fitness for any customer's particular purpose. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customer's particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to change – This information is accurate to the best of our knowledge at the time of printing. Please refer to [www.lincolnelectric.eu](http://www.lincolnelectric.eu) for any updated information.
