

MADE IN GERMANY

TURN TABLE

TURN 250

The TURN 250 combines ergonomic design with high functionality. Its milled slots for angular adjustment feature large radii to enhance safety and prevent injuries.

DESCRIPTION

Three-Jaw Chuck OD 250 mm (9.84")

- **Durable Design:** Anodized aluminum body with chemical nickel-plated steel parts.
- **Versatile Features:** Hollow shaft (70 mm / 2.76") and 10 arresting positions for precise adjustments.
- **Stepless Movement:** Compatible with ITEM profiles for smooth operation.
- **Safety and Usability:** Signal-colored handles for safety, hydraulic 3xD chain arm with torch attachment, and fine adjustment with micrometer screws.
- **Machine Compatibility:** Engine and hose packages for AMI, Orbitec, Polysoude, Orbitalum, and more.
- **Expandable Options:** Supports two-way torch holders and errant table configurations.
